

## Tender Q&A Document

### *Appraisal of the Impact on digestate quality with a final screening step, from introduction of a smaller screen*

---

- 1. In relation to the current tender opportunity: Appraisal of the Impact on digestate quality with a final screening step, from introduction of a smaller screen - please can you confirm what level of detail you would like in terms of nutrients? Just N, P and K, or also others?*

The parameters specified in the standard and some additions that appear on the routine PAS110 analysis suite are as follows:

- pH
  - Oven Dry Matter % m/m
  - Loss On Ignition % m/m
  - Total Kjeldahl Nitrogen (N) % m/m
  - Ammoniacal Nitrogen (NH<sub>4</sub>-N) mg/kg
  - Total Phosphorus (P) mg/kg
  - Total Potassium (K) mg/kg
  - Total Magnesium (Mg) mg/kg
  - Total Sulphur (S) mg/kg.
